AFTER SCHOOL ACADEMIC ASSISTANCE

The District is offering after school academic assistance in English, Mathematics and Science through the Learning Acceleration School Year Program. Students participating in this program will receive additional academic support from a certified RIH teacher after the school day and according to a weekly schedule. Each after school session will be limited to four students, with different content areas and courses spread out throughout the week. Students in need of after school academic assistance can sign up through the district and schools' websites under the Academics drop down menu (Learning Acceleration Program). We ask that students sign up for academic assistance at least the day before for planning purposes. The meeting arrangements are specified on the sign-up page and any further questions can be emailed directly between the teacher and student.
